I always look forward to spending time in the sun when I'm in Colorado, so today I covered my legs in tanning oil and made a map about average annual sunshine per state!! A few highlights below:

Replying to @aliharford

Unfortunately there wasn't any data for Delaware in this set, sorry Delaware.

Looking at its neighbors though the state probably clocks in at 56%.

**Ali Harford** @aliharford · 12/22/18

Comparing my two homes, Colorado has an average of 76%!! Woo!! Syracuse, meanwhile, has 46%. That's one of the lowest in the state of NY and is, frankly, gross.
